

To boldly regulate as no one has regulated before

Director of Authorisations, RegTech and International Supervision at Bank of England, Rebecca Jackson recently addressed an audience at a lunch for the Association of Foreign Banks. The speech was heavily focussed on the importance of data collection and how it would be used by the PRA, and also the importance of RegTech in how this is collected and processed.

'Advances in the way supervisors are able to find, access and analyse your data - our own adoption of regulatory technology, or RegTech, - will enable us to regulate as no one has before. In conclusion, we are committed to promoting a dynamic industry in which we might seek new innovations and firms; and that through RegTech and Transforming Data Collection we can push out the efficient frontier and regulate as no one has before.' **Rebecca Jackson**
